

## Slide Gate Valves 🎉

## Heavy-duty quality.

- Valve allows easy shut off of underground pipes.
- Must provide a stable base, and installation using flexible couplers is recommended.
- All parts are made out of super tough high-density PVC and high-quality stainless steel for maximum durability and corrosion resistance.
- Stubs are 4" long, SDR35 PVC Male.
- This product is not for use in lagoon or non-gravity flow applications.
- Valves are not pressure rated.
- Valves are intended for gravity flow: Low pressure and some seepage may occur.
- This product carries a 1-year warranty. Any modification to product will void the warranty.
