S2000 is a fully photo/biodegradable blanket. The top, bottom and thread are comprised of non-woven nylon material while the filament of matrix is comprised of wheat straw evenly distributed between the two nettings.

Standard blanket dimension is 100SY. However, the blanket can be produced to any custom length and widths up to 16 feet (available after May 2007)

As described in Federal Highway Administration's Standard Specification FP-03 in Section 713.17 and as described by ECTC as a Type 2.D.

Enviroscape ECM, Ltd certifies that S2000 has manufactured and tested to meet guidelines in physical and performance categories as set forth by Federal Highway Administration and ECTC (Erosion Control Technology Council) Type 2.D and by those details listed above.
